

Robot Care

Annual Maintenance Agreement for
Ensuring the Uptime of the Equipment

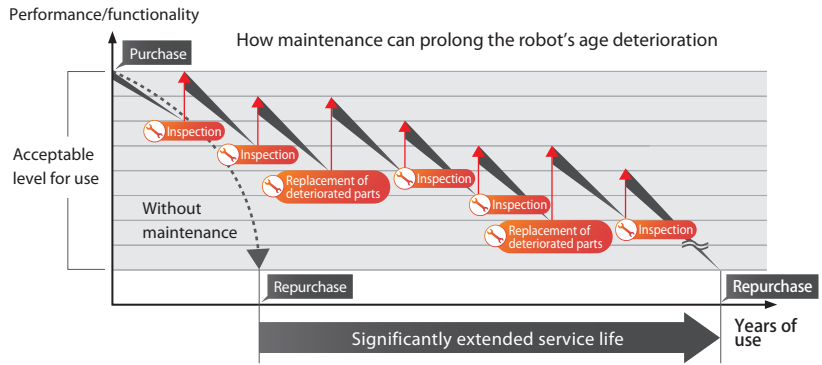

- Expert service you can count on
- Cost-saving flat-rate service package
- Custom options to meet your specific needs

Retaining robot performance by maintenance inspections is vital to maximize uptime

Mechanical parts wear out and deteriorate when used over time, causing unexpected malfunctions.

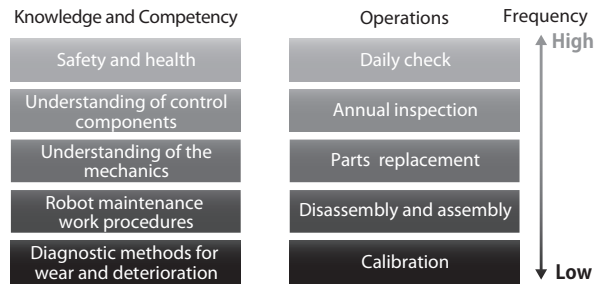

Scheduled inspections can prevent robot failures due to age deterioration and ensure reliable operation.

Are you facing these problems in maintaining your robots?

Problem 1 Acquiring robot maintenance skills

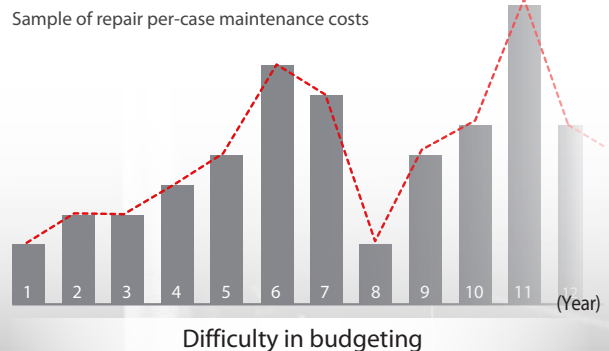

In addition to acquiring the knowledge and skills, operation experience is essential in determining the ideal timing for robot inspection and safe parts replacement. The less frequently performed operations require even more time to acquire.

Knowledge and operation experience are essential to master the skills.

Problem 2 Unexpected repair costs

It is difficult to forecast the budget when repair costs must be quoted for each failure. Annual maintenance cost may rise for unwanted surprise failures.

Our regular maintenance service will contribute to longer life and reliable operations

Robot Care Package

Comprehensive maintenance package providing 3 value propositions.

Value 1

Expert service you can count on

Our highly trained service engineers will perform maintenance service for the customer. Based on regular maintenance and comprehensive diagnosis, we can perform necessary adjustments and parts replacements. We can also recommend the optimum timing of future maintenance and parts replacement. A regular maintenance by our experienced professionals will contribute to the reliable operation and safety of your robots.

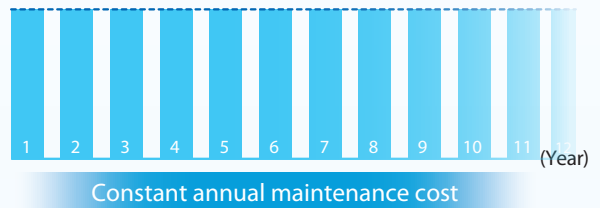

Trained professionals will not miss an alert from the robots.

Value 2

Cost-saving flat-rate service package

By purchasing the maintenance package beforehand, the annual maintenance cost can be kept at a fixed rate.

*Sample image of maintenance costs for the all-inclusive package with replacement parts costs and expenses.

Plus

Value 3

Custom options to meet your specific needs

Customers can not only merit from the comprehensive care services that are included, but can also select optional services to meet the specific requirements of the robots, production lines and maintenance systems.

Example	 Service hours for regular maintenance	Business hours on weekdays	<input checked="" type="checkbox"/> 24/365
	 Cost of Replacement parts	Standard rate	<input checked="" type="checkbox"/> Discounted rate

Quick recovery support in case of failure

Customers can receive priority assistance with technical inquiries and on-site services. Ensuring the quickest recovery without going through the time-consuming quote-order process.

Robot Care Package

Providing the maintenance service choices to meet

Be proactive and subscribe to the annual maintenance service, "Robot Care Package"

"Robot Care Package" is OMRON's annual maintenance service agreement.

You may continue to request standard ad-hoc support as needs arise, but we offer this cost-saving service package that includes the standard ad-hoc care with upgraded service levels. Moreover, you can design your own custom package by adding optional services that are exclusively available for customers that sign up for this package plan in order to meet your specific needs.

List of care services		Ad-hoc care (Request basis)	Robot Care Package			
			Basic plan	Option	Bonus ^{*1}

	Expenses (Travel, accommodation and shipping expenses)	Standard rate				
	Service hours	Business hours on weekdays	●	●		
		24 hours on weekdays				● ^{*2}
24/365				● ^{*2}		
 Field support	Labor Cost	Standard rate	Discounted rate ^{*3}			
	Expenses (Travel, accommodation and shipping expenses)	Standard rate				
	Service hours	Business hours on weekdays	●	●		
		Business hours/365				● ^{*2}
 Replacement parts	Periodic replacement parts	Cost of parts replaced during a periodical inspection or a failure recovery	Standard rate	Standard rate		Discounted rate ^{*2*3}
 Telephone assistance	Technical inquiries	Business hours on weekdays (365 days exclusively in Japan)	●	●		
	Failure recovery request	Business hours on weekdays	●	●		
		24/365				● ^{*2}
 Inspection coverage	Inspection coverage	Inspection of other components ^{*4}				●
 Logistics	Urgent delivery	Standard rate			Discounted rate ^{*3*5}	
	Consignment stock ^{*6}				●	

*1 The bonus for the package will vary depending on the country where the services are delivered.

*2 The services depend on each area.

*3 The discount rate for the cost and expenses will vary depending on the country where the services are delivered.

*4 Limited to the inspection of other OMRON products (e.g., vision sensors).

*5 Cost of special freight (e.g., chartered freight) are additionally charged.

*6 Consignment stock is a service in which a customer stores stock of spare parts on its own premises and costs are paid upon usage.

your specific needs

Our trained service engineers can take care of your robots

Our highly trained service engineers will help ensure your robot's performance and reliability.

The Robot Care packages cover these products

Parallel Robot

SCARA Robot

Articulated Robot

Collaborative Robot

Sample regular inspection items

Tightening torque of robot mounting bolts
LED display on the status display panel
Brake operations
Motor operations

Fan operations
Reference positions
Oil leakage
Belt tensions

Wear and damage of the drive shafts
Tightening torque of the hard-stop
Arm Integrity
Platform Integrity

Damage of the covers
Line voltage and cable installation
Connections and damages of cables and air lines
Encoder battery voltage *1

*1 Regarding a collaborative robot, air filters instead of batteries are supposed to be inspected.
